

FinPulse: Project Technical Report

1. Project Overview (English)

FinPulse is a professional-grade, full-stack web application designed for comprehensive financial tracking. It allows users to manage multiple profiles under a single account, track expenses with categorical precision, and visualize financial health through real-time analytics.

2. Technology Stack

- Backend: Python (FastAPI)
- Database: PostgreSQL (Supabase)
- Frontend: HTML5, CSS3, JavaScript (Vanilla SPA)
- Authentication: JWT with Refresh Tokens
- Email: Brevo HTTP API for 2FA
- Charts: Chart.js

3. Key Features

- Secure Registration & Email Verification (2FA)
- Multi-user support within one account
- Real-time Analytics Dashboard & Visual Charts
- CSV Export for financial reporting
- Restricted Admin Command Center (Real-time tracking)
- Uzbekistan Timezone Synchronization (UTC+5)

2. Loyiha haqida (O'zbekcha)

FinPulse - bu to'liq funksional, professional moliyaviy boshqaruv tizimi. U bitta akkauntida bir nechta profilni boshqarish, xarajatlarni kuzatish va grafiklar orqali tahlil qilish imkonini beradi.

Texnologiyalar:

- Backend: Python (FastAPI)
- Baza: PostgreSQL (Supabase)
- Frontend: JS, HTML, CSS (SPA)
- Email: Brevo API (Tasdiqlash kodlari uchun)
- Grafiklar: Chart.js

Imkoniyatlar:

- Xavfsiz login va Email tasdiqlash (2FA)

FinPulse: Project Technical Report

- Bir nechta foydalanuvchini qo'shish
- Real-vaqt diagrammalari va hisobotlar
- Excel formatida (CSV) yuklab olish
